Christine Smith Schulman
Consultant
Trauma & Critical Nursing

Christine Smith Schulman lectures on a variety of trauma and critical care topics throughout the Pacific Northwest and nationally, including the AACN National Teaching Institute and the ENA Scientific Assembly. She has published in numerous professional nursing journals and was a section editor and chapter author for [AACN's Advanced Critical Care Nursing](#).

She received her Bachelor's Degree from the University of Wyoming and her Master of Science Degree from OHSU. After working as a critical care staff nurse at Denver General Hospital and Oregon Health & Science University, she was the Trauma & Surgery CNS at Harborview Medical Center in Seattle, Washington for 8 years. She served as Chair of the AACN Research Workgroup in 2006-2007 and was elected to the AACN National Nominating Committee in 2008-2009. She has served as Clinical Faculty for several schools of nursing throughout the Pacific Northwest. In addition to working as an independent educational consultant, Christine also works part-time as a critical care CNS for the Legacy Health System in Portland, Oregon.

Known for her ability to help nurses understand complex concepts, Christine's extensive clinical experience and sense of humor make her presentations interesting, enjoyable, and clinically relevant.

Consultation & Education Services
